

Collaborative Model of Practice to Respond to Sexual Violence in the Tri-Counties

Our Collaborative Model of Practice (CMP) ⁽¹⁾ will provide us a structure to address sexual violence prevention and intervention services across the tri counties in a coordinated, efficient, and effective manner.

Vision

Through collaboration and cooperation we ⁽²⁾ will develop and implement a Collaborative Model of Practice to assist us in the prevention of sexual violence and have in place appropriate intervention services for all victims, taking into consideration Best Practices ⁽³⁾ within a Social Justice Framework ⁽⁴⁾.

It will enable us to:

- ⇒ *share our collective resources to deliver a continuum of programs and services*
- ⇒ *identify and address gaps in services*
- ⇒ *prioritize our collective actions*

Our Guiding Principles will assist us in our work as we move forward.

1. **Inclusiveness** – We will take into consideration all our diversities.
2. **Accountability** – We will be accountable to each other through cooperation and open communication.
3. **Best Practice & Social Justice Framework** – We will promote and develop our standards and practices within a Best Practice and Social Justice approach.

References

1. *CMP*–A way to work with each other, that maximizes our resources, to achieve our task/vision.
2. All relevant stakeholders in the tri counties involved in sexual violence prevention and intervention services.
3. Best practice is a method or technique that has consistently shown results superior to those achieved with other means, and used as a benchmark.
4. Social Justice Framework aims to address unfairness and inequity.
